

Dear dog friends.

With our hotel, you and your loyal dog have chosen a wonderful place where you can run around in the great outdoors right in front of the hotel. So that the togetherness in our hotel is as peaceful and friendly as we all would like it to be, there are some rules of behaviour for our 4-legged guests at the Seespitz.

Our rules for a healthy relationship ...

There are also real dog friends among our employees, which is why we want our testimonial "Chester" to have a say in this case. Chester, the dog of our reception manager Daniel knows the customs of our house and is of course very well aware of the needs of his fellows.

Hello there, at the reception I can inquire suitable walking paths for my business to be carried out because after all, dogs also have to at one point. The green areas at the terrace and in front of the hotel are of course taboo, but which dog does that?

Please, always pack the dog waste in the designated dog waste bags which you find in your room or get be ordered at the front desk. Also, my owner are informed to dispose the bags in the containers provided.

In the garden area around the pool, the sun terrace and as well as in the entire hotel be on the leash. No matter how calm you are, there can still be guests who are afraid.

Be happy to be able to go on vacation but please do not disturb other guests. That's why I stay away from people at the lounging areas at the pool, loungers & garden.

What is surprising is that we can join for dinner at the Seespitz. At the main restaurants and buffet unfortunately we are not allowed and your owner has to go a little further but we sit together for dinner at the fireplace bar.

Since we know how to behave and how to make yourself popular, I never express myself louder than my owners. I prefer to enjoy my vacation in tranquility.

Of course, we always sleep on the cosy blanket on the floor in the hotel room. Sofa, bed and chairs are taboo for us and are reserved for your owners. Above all, please be aware that the hotel will charge an extra cleaning fee of EUR 80.0 - in addition to the daily dog fee - if the room has to be cleaned at departure with an increased cleaning time.

We are allowed to go on the balcony and terraces, but please not use it as a substitute for the walk. If the employees have to clean waste away, it can be expensive.

Since one or the other chambermaid is a little afraid of me, please hang the dog sign on the door when you are in the room. She then knows that she is not allowed to come in and waits until you go for a walk.

In case that something does not goes to plan, please do not be surprised if an employee's intervene accordingly. After all, they have to make sure that all guests feel comfortable.

I wish you a very nice time with us!

Your Chester
